

**GOVERNOR'S AWARD
FOR EXCELLENCE IN ENERGY MANAGEMENT**

NOMINATION FORM

Nomination Deadline: October 15, 2004

An independent panel of energy experts will review the nominations and recommend those deserving special recognition. The truly outstanding nominees will be invited to Olympia to be recognized by Governor Gary Locke.

Information used to evaluate the nominee's energy management strategies may include:

Energy efficiency	Energy cost savings
Renewable energy applications	Maintenance and operations
Innovative financing	Employee and building occupant participation
Energy performance contracting	Sustainable or "green" design in a new building*

I NOMINATE: _____ for _____
Please circle: State agency, community college, four-year university/college, K-12 school

Nominated by: _____ **Phone#** _____ **E-mail** _____

Why does your nominee deserve special recognition?

- 1. Describe the long-term energy savings (kWh, Therms and dollars) accomplished over the past five years. Identify base year used for comparison.**
- 2. Describe the projects or types of energy efficiency measures completed.**

- 3. Describe how the energy management strategies were financed.**

% used	Loans	Utility Incentive	Capital funds	Performance Contracting
Financing				

- 4. Describe employee or building occupant participation in the energy management strategies.**
- 5. Describe renewable energy, cutting-edge technologies or innovative strategies used.**
- 6. Describe the continuous and long-term strategy for energy management including: personnel involved, budgets, utility expense tracking, and other activities that document energy management as a high priority operational issue.**
- 7. Is there added information to describe the nominee's energy management activities?**

***For green building nomination, describe sustainable design features, including energy and water efficiency, and whether the building was certified or met any recognized green design standard, such as the USGBC LEED™ standard.**
